Closure Sticker

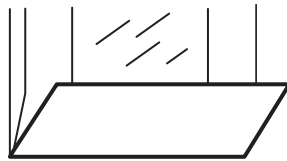

Jewellery Sticker

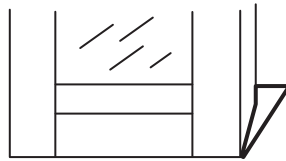

Printed Film

Bags with Wickets

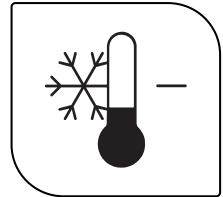

Front  
Bottom Flap  
(extra dense)

Back  
Bottom Flap

Printed Inside  
and Outside

Freezable

# 3 COMPELLING REASONS TO CHOOSE OUR PAPER-BASED AUTOMATISED PACKAGING BAG:

**Rooted in Sustainability:** Our paper bag designed for automatic filling enables you to significantly reduce plastic usage compared to an equally-sized plastic bag. Packaging one million loaves of bread with our paper bags saves several tons of plastic, replacing it with the renewable resource paper.

**Compatible with Your Machine Type:** Our paper bag is versatile and can be easily used with almost all common bread packaging machines. Just let us know your machine type – we're happy to customise the bag, including the optimal handle, specifically for your needs.

**Quality Made in Germany:** Our innovative packaging solution is manufactured in Germany and stands for the highest quality standards. We offer excellent print with up to 10 water-based colours using flexo printing. At the same time, you benefit from short delivery times, an efficient supply chain, and our more than 130 years of experience in paper packaging manufacturing. That's what we call a sustainable alternative!

**Our certifications confirm our responsible actions:**

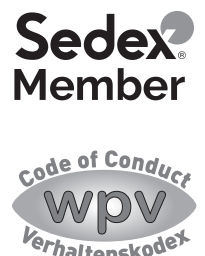

Good for me.  
Good for the environment.

The mark of  
responsible forestry
